PROFESSIONAL SUMMARY

Frontend Developer with nearly 2 years of experience building React.js-based web and desktop applications for client-facing business operations. Skilled in production support, technical troubleshooting, and delivering high-quality, scalable UI solutions using TypeScript, Tailwind CSS, and REST APIs. Experienced in building POS billing systems, examination management platforms, and business websites with admin panels.

TECHNICAL SKILLS

Frontend: React.js, Electron.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Core Skills: REST API Integration, Responsive Design, Client-Facing Delivery, Production Troubleshooting, Git, GitHub, GitLab

EXPERIENCE

Frontend Developer | Youngminds *Dec 2024 – July 2026*

PastryChef ERP

- Built UI components to handle offline/online billing workflows, including sync status indicators and error handling for local-to-server data synchronization, improving reliability for client outlets.
- Developed cashier modules for a native desktop offline-based ERP application used across multiple business outlets.
- Implemented billing workflows, tax calculations, discount distribution, payment handling, and stock-controlled product management.
- Delivered core billing modules — barcode scanning, customer lookup, cash handover, order cancellation — as first point of contact for client-reported issues during rollout across multiple outlets.

ETC Mentors Examination Platform

- Developed administration modules for student registration, college registration, exam creation, scheduling, reporting, and result management.
- Built role-based dashboards and workflows supporting live and scheduled examinations.

Business, Educational & Corporate Websites

- Developed responsive websites and admin panels using HTML, CSS, Bootstrap, Tailwind CSS, and JavaScript.
- Built content management features for events, galleries, faculty information, forms, and dynamic website updates.
- Worked extensively with REST APIs to integrate customer, billing, examination, reporting, and content management workflows.
- Documented technical workflows and shared implementation learnings with the team to improve delivery efficiency across modules.

Certifications:

React.js Frontend Development — AchieversIT, Bangalore

ADDITIONAL EXPERIENCE

Business Process Associate | Accenture *Aug 2023 – Nov 2024*

Prior role before transitioning into frontend development; built foundational client communication and process-driven problem-solving skills.

EDUCATION

B.Com (Computer Applications) | SV University | CGPA: 8.60
